

Planned Work In Your Community

Investing today, powering tomorrow

Hydro Ottawa is committed to delivering the highest levels of customer service and safety. To achieve this goal, Hydro Ottawa regularly evaluates, replaces and upgrades equipment in your area. Investing in infrastructure is essential to the delivery of reliable electricity service for the future.

Starting this month, Hydro Ottawa will be conducting a pole replacement project on Laurier Avenue East. This initiative is scheduled to be completed by October 2014.

Should a planned power interruption be necessary in order to complete this work, you will receive advance notification.

Hydro Ottawa will take steps to mitigate any power disruptions, construction noise and traffic concerns. Your patience is appreciated.

We apologize for any inconvenience this vital work may cause.

Project Duration:

August 2014 to October 2014

Affected Area:

Laurier Avenue East between Chapel Street and
Charlotte Street
